

How to buy/renew/extend your maintenance and support plan

Though we never force any of our customers to buy (or keep current) their maintenance/support plan, we do encourage them to do so because that's the only way to gain access to:

- updates and upgrades (including bug-fixes and hot-fixes)
- customer support

Buying or extending your maintenance/support plan is really easy. First of all, log into the [Syncplify Customer Center](#) with the **same email address that was originally used to purchase your license**.

Once you're in, locate the license code which maintenance plan you want to buy or extend, and select the **Buy/extend maintenance item from the three-dot menu** on the right-hand side of the same line of the license code, as shown in the screenshot below:

The screenshot shows the 'Licenses' page in the Syncplify Customer Center. On the left is a dark sidebar with a user profile (fjodr@syncplify.com) and navigation links for Dashboard, Licenses, Orders, and Resources. The main area has a 'Licenses' header with a filter box and an 'Offline Activation' button. Below is a table with four columns: License, License Type, Status, and Maintenance Valid To. The table contains four rows of licenses. A red arrow points to the three-dot menu on the right side of the table, which has opened a dropdown menu with options 'Buy/extend maintenance' and 'Request support'.

License	License Type	Status	Maintenance Valid To
<input type="checkbox"/> S6X6-...	Syncplify Server! Basic	Activated	2023-12-28
<input type="checkbox"/> S6K8-...	Syncplify Server! Ultimate	Activated	2032-
<input type="checkbox"/> S6TW-...	Syncplify Server! Ultimate	Activated	2043-
<input type="checkbox"/> S6DB-...	Syncplify Server! Professional	Activated	

You can even co-term multiple maintenance plans, and have all of them expire on the same day, by simply selecting multiple license codes with a check-mark, and then clicking the button on the top-right corner (as shown below):
